## . Beskrivning av kursupplägget.

### Beskrivning av kursupplägget.

-I adjusted the given course description and previous years' material (Greg's slides and Wushi's youtube videos).  
-At the beginning of the course I gave a short summary of what we would see in the course and tried to motivate the two parts, i.e. groups and rings. Every session was started with a summary of what I would do during that session.

---

## . Kursens fördelar, beakta studenternas uppfattning i kursutvärderingar.

### Kursens fördelar, beakta studenternas uppfattning i kursutvärderingar.

-It seems some students are happy with the content and the new way of thinking about math and reasoning  
-I was glad to hear not only now, but already during my other feedback that students find the topic interesting.

---

## . Kursens nackdelar, beakta studenternas uppfattning i kursutvärderingar.

### Kursens nackdelar, beakta studenternas uppfattning i kursutvärderingar.

-Of course giving more examples and/or slower pace are always wanted, but given the very short time of the course it seems very difficult to do so.

---

## . Slutsatser samt förslag till förbättringar.

### Slutsatser samt förslag till förbättringar.

-I suggest not to have both the course and exercise classes in a row one after another.  
-To find a more suitable course book, which can be more motivating and direct toward the concepts
